NERVOUS PROSTRATION CURED BY DR. WILLIAMS' PINK PILLS.

By Toning up the Blood and Nerves Patient Recovered Weight, Strength and Good Spirits.

When the nervous system is broke down from overwork or whatever cause, life loses its joys. Not only is the ner-yous victim a sufferer himself but he is lly a trial to the whole family. Nervous breakdown is often gradual, aring at first to be merely an unu-fretfulness. Dr. Williams' Pink Pills tone up the nerves in the most direct way and not only cure minor troubles but serious disorders as well.

Mr. W. W. Munroe, of 16 Hazel Park,
Everett, Mass., says: "About four years
ago this September I became all run down from overwork and from confinement to work during warm weather. For two months I grew steadily worse. I lost in weight and strength and had no appetite. My memory failed me quite rapidly and I became in a very low state, both physically and mentally. I took no interest in life, neither in business nor recreation. In my position, as foreman in a large manufacturing chemist's ertablishment in Boston, a good memory is absolutely essential to success because of the immense amount of detail that must be carried in the head.

"I grew very despairing, could not bear to have people meet me and my friends remarked on my condition. About the middle of December a friend told me one day that he had tried Dr. Williams' Pink Pills and found them reliable. I commenced taking them and at the end of two weeks the change for the better was remarked by friends. I continued using the pills until I was thoroughly recovered. I regard them as remedy and make this statement voluntarily in gratitude for the benefit I received from them."

These pills actually make new blood and have cured such diseases as rheunatism, nervous and general debility indigestion, nervous headache, neuralgia and even partial paralysis and locomotor ataxis. As a tonic for the blood and nerves they are unequalled.

If you are a sufferer from any disor der of the blood and nerves write for proof of what Dr. Williams' Pink Pills have accomplished in cases similar to yours. Every testimonial used by this company is carefully investigated before being published and is authentic.

Dr. Williams' Pink Pills are sold by all druggists, or direct by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Clever Trick of Tramp. A queer comedy of cheating is now

causing much amusement in Paris. A laborer named Bedasne, living at Ymonviile, in the Eure et Loir, went to Melun with two pounds in his pocket. Having spent this in liquor, he conceived the idea of getting on to Paris for nothing.

Finding an empty third-class compartment, he fastened a flannel helt round his neck, stuffed a handkerchief into his mouth, pitched his empty purse onto the opposite seat and, lying down, first had a sleep and then, when Paris was reached, refused to give any sign of life till the alarmed station staff poured a cordial into his

Then he was taken to a hospital, where he told a story of being attacked by three men, but police ques tions becoming too difficult, he at last related his stratagem, and was haled from his sick bed to prison .-London Globe.

EXTRA SESSION OF THE MISSOU-RI ASSEMBLY CONVENES.

GOVERNOR RECOMMENDS NEW LAWS

Directs the Attention of the Assem bly to Six Specific Subjects.

Jefferson City-The Forty-fourth General Assembly convened in extraordinary session at noon Tuesday. Following the reading of Gov. Folk's messags setting forth the object of the call, both houses adjourned until Wednesday

The Governor directed the attention of the Assembly to six subjects, name-

The enactment of a law giving St. Louis, among other municipalities, the right to regulate the rates charged by public service corporations.

2. An amendment to the racetrack gambling law to prohibit the telephoning or telegraphing of bets on horse races, with an emergency clause. A bill without the emergency clause was passed at the late session, but the announced intention of the St. Louis race track men to carry on their operations until that law shall become effective prompts the executive to urge immediate action at this time.

The passage of a law empower ing the Governor to direct the Attorney General to institute before the Supreme Court proceedings again negligent county officials.

4. The passage of a general appropriation bill, to take the place of the one recently enacted which is held to be invalid because of legal defects.

5. Home rule in the conduct of the police and election department of St. Louis, Kansas City, and St. Joseph. An act creating the office of State Excise Commissioner, with power of review vested in the Circuit Courts. Existing law relates only to St. Louis.

The Governor's Message. The following is a partial text of Gov. Folk's message:

"The Forty-fourth General Assembly of Missouri, in regular session, accomplished much for the people of the State. The members of this assembly are entitled to praise for what they have enacted, but the work is not yet finished. There is more to be done. Believing if special measures of grave importance to the people are ever to be made laws, they will be by this assembly when they are considered apart from the multitude of duties and distractions incident to a general ses-I have called you together in special session. It is your province to legislate, and I would not if I could interfere with your prerogative in that respect. It is my duty, however, to submit and urge upon you my views on public questions, for you to adopt or not, as in your conscience you may deem best for the people. I am answerable to the people for my recommendations. You are answerable to

the people for your legislation. Local Self-Government. "The subject of this session have to do with government and with the enforcement of the laws, which is the main purpose of government among a ernment the State is sovereign as to all matters except those delegated to the national Government. The right of the State to self-government should

What State Could Do. "What is self-government? Is it that law-breakers in localities who openly are permitted to defy the laws of the State should not be interferred with by the State? This is local nullification; it is not self-government. The right of local self-government is, the right of a locality to enforce the State laws through its local officials. the cry of self-government is raised, But when these officials cannot or although real self-government is in will not enforce the laws there is no longer local self-government. If highway robbers and maranders were permitted to operate at will in any county without interference it could not be said that the people of the county have local self-government, for they in the case mentioned would have no government at all. If the State authe majesty of the law in that county it would not be interfering with local self-government there, but rath- tion to other than measures of vital er would be restoring local self-gov- consequence.

Receiver Relieved.

Atlanta, Ga.-Judge Newman, in the United States district court, Monday issued an order ing J. T. Dargan, president of the Atlanta & Bismingham Fire Insurance Co., from further connection with the receivership of the company. H. C. Sexton is made sole receiver. Judge Newman also granted a petition asking that all charges reflecting upon the character of President Dargan be stricken from petitions filed some time ago.

Gov. Hanly Sinks.

Indianapolis-Gov. Hanley's condition has taken a turn for the worse. The family physician, Dr. Goar, called into consultation Tuesday Dr. Simon P. Sherer, stomach specialist, and strict orders were given that the governor should remain in bed at least three weeks.

To Penitentiary for Forgery. « Kansas City, Mo.—Fred Klages, who when arrested, gave his name as Coridon, was sentenced to the state penitentiary for five years.

Greek Consul Arrested. Lowell, Mass., Michael Intros, the Greek consul here, was arrested Monday night by United States officers on a charge of conspiracy in connection with the importation of Greeks into this country.

Schooner Goes Ashore.
Norfolk, Va.—The schooner Laura L.
Sprague, Capt. Pierce, of Marbiehead. Mass, ran ashore off Cracoke inlet from New York. She had several mis-Sunday. She is of 564 net tonnage and haps on the voyage, including the Poss carries a crew of six or seven men.

Public Utilities. "One of the subjects, local in its nature, is that or rates charged by public utilities. In furtherance of the princhpal of local self-government, I believe that the municipalities of the State should have power to fix reasonable rates to be charged by public service corporations. The corporation is a fixture in our modern life. It is entitled to fair treatment the same as individuals; no more, and no less. But it should be required to treat the people fairly. With the enormous growth of public service corporations, controlling monopolies, it has become necessary for some governmental agency to regulate their charges in order to prevent extortion from the public. This should he done not with a view of injuring the corporations controlling such monopolies, but merely to secure justice

Asks Racing Amendment. "Some time last year the Supreme Court decided the act of the fortythird General Assembly did not apply to bookmakers telephoning their bets out of the State to be registered. This ruling, as I pointed out to you at the regular session, practically nullifies the statute, as each bookmaker under it needs only to add a telephone to his other paraphernalia running to East St. Louis Ill., or Kansas City, Kas., to defeat the law. I recommend to you the enactment of a statute, making it a felony to register a bet upon a horserace, either on a blackboard or other substance, or to telephone a bet on a horserace to any other State to be registered there, or to telegraph a bet for such purpose, or to use any instrument or device to accomplish the registration of bets. This statute was passed, but the emergency clause was overlooked, so that it will not go into effect until June 14 of this year. Within the regular session the racetrack gamblers announced that the racetracks would be opened and gambling on races permitted this spring. Their preparations, to reap a crooked harvest were checked by the call for this special session, which included this

subject. The Saloon and the Law. "The liquor traffic should be regulated by strict laws and those laws vigorously enforced. We need a law prohibiting brewers and distillers having an interest in dramshops. The criminal saloons are often the breweryowned saloons. Competition between breweries compels them to take a low class of men and set them up in busfness. These men have no sense of proprietorship or pride in running a decent place and these saloons often become dens of vice and lawlessness. Effective local option laws for counties, towns and cities should be enact-

The State Control Law. "Why is it that the plea of local

self-government was not set up against the State regulating the mines, the railroads, the insurance companies, the banks, the dentists, the barbers, the bee hives? It is only when the saloons and gambling interests are sought to be brought within the law that local self-government is invoked. At the regular session of this Assembly laws were enacted placing all the banks of the State under the control of a banking commissioner; putting free people. Under our form of gov- the bee hives under the State Inspector of Aplaries; placing the roads under the supervision of the State Highway Engineer; providing for a State Game Warden to enforce the laws to be zealously guarded from encroach-ments of the Federal Government be-fish that swim in the water; providing yond the powers expressly delegated for State control for the weighing of grain in all public warehouses; making food-stuffs subject to the inspection of the State Food Commissioner. There was nothing heard about selfgovernment when these were being considered. But when it is urged that the State have some authority to enforce its laws against the liquor interests the situation in the minds of some assumes a different aspect, and

no way affected by the excise law. May Cite Other Matters. "These are the only subjects embraced in the call convening this session. During your deliberations occasion may arise to submit other matters, but this will not be done unless I consider them of such grave importance as to his reelection to congress and Mr. demand attention at once, for I realize | Hinshaw refused to receive the bribe. thorities should step in and uphold after your arduous labors of the regular session it would be imposing a hardship on you to bring your atten-

WOULD BENEFIT ALL

RESULT OF COMMON SENSE TAR-IFF REVISION.

THE FACTS ARE PLAIN

Claim That Free Trade Is Aimed at by Democrats Is Foolish-Figures That Will Convince the Fair-Minded.

Whenever the standpatters, and even those Republicans that believe there must be some reform of the present tariff system, are cornered by the exposure of the plundering by the protected trusts and combines, their only reply is that free trade would ruin the country. This of course is no onswer at all, as neither the Demociatic party, nor any other organization of consequence politically, either demends free trade or favors it. Free trade is a bugaboo of the standpatter who has a brainstorm and suffers from paralogism whenever tariff reform is mentioned. Free trade would undoubtedly be the best thing for the whole world if all nations practiced it, but practically it is at present impos-

Reforming the tariff by reducing it, is not free trade, far from it, for there would still be a large amount of tar iff tax paid under one-half the present duties, and as the trusts would have to compete with the imported goods, which would be sold at a reduced price, in accordance with the lower rates of tariff duties, there would be a general reduction of the cost of living and the great mass of consumers would be able to purchase more instead of economizing as many now do. a few hours after the adjournment of There is now imported over \$600,000. 000 of dutiable goods and nearly that much free of duty. All that comes into the country upon which no duty is collected is "free trade," and if lumber and coal and hides were also placed on the free list, as proposed by the tariff revision Republicans of Massachusetts, Minnesota, Wisconsin, the Dakotas and Iowa, no one would be injured but the trusts and combines that illegally control those necessary articles, and if their profits would be cut down by having to compete with the imported lumber, coal and hides, every one else would be the gainer.

Free lumber would mean cheaper buildings and therefore lower rent; free coal would mean cheaper fuel for the householder and the manufacturer and thus reduce the cost of living and of manufactured products; free hides would allow the tanner to produce cheaper leather, which would mean cheaper boots and shoes, harness and all products in which leather is used. The beef combine which now controls the market for hides, and through a subsidiary combine the price of leather, the cost of which is now very high, by reason of these combinations in restraint of trade, would suffer to some extent.

So when the standpat statesman tells you that the Democratic plan of tariff reform is free trade, ask him why adding three more articles to the present free list, which now under the Dingley bill allows free trade on over half a billion of foreign products, would ruin the country or indeed hamper any industry that is not unlawfully restraining trade. As Republican politicians are notorious bluffers, especially those of the standpat clique in league with the trusts and combines, it may be well to be prepared with the official import figures which can be found in the United States Statistical Abstract for 1905-the last issued-on page 302, which gives the value of imported goods free of duty as \$517,442,302, and if that does not see his bluff just turn back the few pages and show him what those free

trade articles are. Corruption in Ship-Subsidy. That the passage of the ship-subsidy bill through the house of representatives, by the very close vote, was due to corrupt influences was shown by the statement of Mr. Birdsall of Iowa, a Republican, that Mr. Hinshaw of Nebraska had been sent \$500 by Field S. Pendleton, the chief lobbyist of the ship-subsidy promoters, to aid Then there is the evidence that Alex. R. Smith of Cleveland paid Arthur

B. Story \$2,000 and large sums of money to other people to have printed bogus letters purporting to be from labor organizations for the purpose of deceiving the house of representatives by making members believe that many labor unions were favorable to the subsidy bill. This dishonesty was exposed by President Gompers and the evidence is contained in a speech delivered by Congressman Shackleford of Missouri on February 27, 1907, which will be found in the Congressional Record of February 28 on pages 4263-66. Such are some of the methods of the ship-subsidy looters that have come to light and it is but fair to assume that much greater corruption is still concealed.

Trust Busting.
A newspaper trust has been organized known as the "Parks Pool" and is rapidly forcing owners of mills all ver the country to join it. This shows the absurdity of the administration's plan of prosecuting trusts, for last year a similar concern, the General Paper company, was dissolved by the court and now it pops up again under a new name. These paper combinations are protected by the tariff and as the administration evidently does not intend to punish the trust magnates as they deserve and stands pat on the tariff which protects them, the public and newspapers who consume paper will have to grin and bear the trust high prices. The only certain plan of trust busting is to reform the tariff, so that it no longer protects any combination in restraint of trade, and competition will do the

This announcement that Hawaii is not to be Americanized arouses anxous doubts as to the future status of this outlying possession. It should at east be spared the awful fate of being benevolently assimilated.

ANOTHER WESTERN CANADA RECORD.

The Way in Which a Swan River Far

Swen River, Manitoba, Nov. 21, 1906. Two weeks ago te gave an account of the prosperity of a farmer in Western Canada, and this week we reproduce another.

"I have been asked regarding this year's work on my farm, and I herewith willingly submit the following statement: "Three years ago I purchased an

improved farm of 186 acres on Section 9, Township 36, Range 27 west of the First Meridian—two miles from the town of Swan River. I plowed and cropped 1221/2 acres

of land during this year (1906), 80 acres in wheat, 30 acres in oats, and 121/2 acres in barley. "The cost of putting in and taking

off this crop this season is as follows: Cash paid for blue stone \$ 1.50 Cash paid for binder twine ... 39.00 125.00 Cash paid for hired help..... Cash paid for threshing 175.00

Total\$ 340.00 have been well now for nine years "Receipts for the year as follows-80 acres of wheat (yielded 30 bushels per acre)-Total .. 2,400 bu. 30 acres of oats (yielded 46 bushels per acre)-Total..1,200 stack of oats in sheaf 200

121/2 acres barley (48 bu. per acre) 600 Crop potatoes..... 300 1,168 bu. wheat at 62c..... \$ 724.16 1,232 bu. wheat in granary at 300 bu. barley in granary at 105.00 1,200 bu, oats in granary at 200 bu. potatoes in root house 60.00 stack of oats in sheaf for

30.00 Garden roots and vegetables. Total\$2,213.00 Cost of above, besides my own labor 340.50

I have in all, 125 acres ready for erop next year, including 10 acres cleared and broken this season.

Total Assets. 186 acres land, with house, stable and outbuildings, etc.\$5,000.00 Implements 4 head of horses, and harness 800.00 15 head of cattle..... 20 pigs

Receipts of this season's crop 1,872.00 Total\$8,747.50 Liabilities are 1,000.00 Total assets\$7,747.50

I have made the above amount by farming in Manitoba. I think it has paid. This is my standing to-day. I am a single man, a Canadian, and 26 years of age.

For particulars how to secure low railway rates to the free homesteads of Western Canada apply to any Canadian Government agent.

Soldiering in China. Corporal Frank Hayden, of the army recruiting station, who spent a year of army service in China, says it is a good country to "soldier" in. "The worst thing about China and the islands," he said, "is that there's no one to associate with except the natives. Otherwise they're places, China especially, to do milltary service. Food of good quality is very cheap. We could buy 175 eggs there for 50 cents American money or one dollar 'Mex.' Ten cents would buy a fine fat chicken and 60 cents a good sheep. The Chinese are good cooks and we could employ one for a very little money over his board."-

The Value and Importance of Ethical Remedies. Remedies which physicians sanction for family use, as they act most beneficially and

are gentle yet prompt in effect, and called ethical, because they are of Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture,

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

of which is fifty cents per bottle. Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
